

Fendall is a division of Bacou-Dalloz is an industrial group specializing in the design, manufacture and sale of personal protective equipment (PPE). The Group offers a complete range of head-to-toe equipment designed to protect men and woman against hazards in the workplace, or in situations where they are at risk of injury.

Since 1950, the Fendall Company has manufactured and distributed safety and health products worldwide. Fendall has reached a leadership position through product innovation, superior quality, and responsive customer service. Fendall Company recognizes our responsibility to our customers and their employees. Because we understand that our products can and do make a difference in the outcome of a chemical injury to the eye, every Fendall employee is committed to delivering value, safety and reliability in the design, manufacturing and marketing of Fendall Emergency Eye Wash Products.

Our products build on a history of innovation:

- The first self-contained, gravity-fed station
- The first heated self-contained, gravity-fed station
- Pure Flow 1000 Emergency Eyewash Station
- Eyesaline Concentrate for self-contained, gravity-fed stations
- Blow-Fill-Seal Personal Eyewash Bottles

Employee Information –

- Currently 30+ people are employed at the Platteville manufacturing operation
- The Platteville operation supplies 100% of the Fendall products nationwide

“The workforce is very productive with little to no absenteeism.”

Ron Geil
