

## Hickory Springs

Hickory Springs is one of the nation's leading suppliers to the furniture and bedding industries. It delivers a full range of high-quality foam products for a broad range of industrial applications and can provide custom-made foam products that perform to your exacting specifications.

*Mission Statement*—The mission of Hickory Springs is to be a profitable, quality-driven, value conscious and customer-focused supplier

Our first responsibility is to our customers. In support of that philosophy we will:

- Understand each customer's needs and objectives through frequent and clear communications
- Provide exceptional service and innovative products to meet customer requirements
- Observe the highest ethical standards in all of our actions
- Assure the optimal welfare of our employees, stockholders and local communities

*Brief History*-- More than a half-century after its founding as a producer of coiled furniture springs, Hickory Springs Manufacturing Company has grown into one of the nation's largest integrated manufacturers and suppliers of components for the furniture and bedding industries. In addition to these traditional markets, Hickory Springs serves a growing range of other industries, from bedding to floor covering and construction to automotive and telecommunications. Today, Hickory Springs has more than 60 operating facilities across the country and is a recognized leader in providing its customers the products they need with the service and delivery they require.

*General Information* – The Platteville operation manufactures foam products for furniture manufacturers. The operation also warehouses Hickory Spring parts for Midwest customers.
