

Woodward Printing Services--Commercial Print Facility

Our modern commercial printing facility in Platteville, Wisconsin opened in 1995. With the support of the State of Wisconsin, the local Chamber of Commerce and the Platteville Industrial Development Corporation, we worked with architects and builders to design a multi-million dollar facility to better serve our present and future customers.

- We do business with honesty & integrity!
- We are Progressive
- Environmental responsibility is important to us

“Woodward Printing Services chose the Platteville Industry Park over numerous locations in other communities and in other states because of the willingness of the City of Platteville, Platteville Chamber of Commerce and the Platteville Area Industrial Development Corporation (PAIDC) to work with us in attaining tax incentives and State of Wisconsin Bonds. Locating our plant in Platteville with the University of Wisconsin – Platteville, availability of an excellent labor force and the now complete 4 lane highway was an excellent decision. The Industry Park also provides us the opportunity for future expansions as we have already expanded the original building approximately 6 years ago.”

– Mike Gile, VP Commercial Printing
